

QUALITY POLICY STATEMENT

The established policy of C-Quip Limited is to provide their Customers with products that satisfy their needs and expectations, delivered in conformance with the Organisation's Quality Specification or as laid down by the Customer.

The Organisation's Quality Management System is in accordance with the requirements of BS EN ISO 9001:2008 and is considered to be the minimum standard to be achieved by the Organisation to ensure that the requirements of Customers are adhered to in all respects.

The Quality Management Procedures are mandatory and no deviations or alternatives are permitted. All employees, whether directly involved with Product Quality or not, must comply with them.

The Managing Director has the responsibility and authority to ensure that this Policy is established, enacted and that the Quality System is periodically reviewed to improve its suitability and effectiveness.

Our belief is that a quality conscious organisation will build on its own reputation; therefore a programme of Controlled Quality is operated from receiving Quality Sensitive Products, through to despatch and on Customer returns.

The need for Continual Improvement is paramount within the Organisation, therefore Quality Objectives have been established and trends reviewed at the Annual Management Review Meetings.

Each employee is made aware of the need to improve performance continually wherever possible and thus provide the best Quality Product. This is reflected in job descriptions and control procedures and through the support and encouragement given by immediate superiors.

I.D. Cooke, Chairman /Managing Director
